Welcome to Ken-Welch.Com

Why not know for sure?

Set up in honour of, and to continue the work of, the late Ken Welch. His original home page.

A political blog using Reverse Speech to spy on political VIPs and others involved in political pursuits. I bypass political lies with the work I do. And many layers of security. I hope you like what you find on this blog, the only one of it's kind on the Web. Finally, nobody owns or controls me. Thanks, Dom.

Chinese President Xi Jinping's keynote address at his party's conference

China's Xi Jinping Delivers Major Speech at Communist Party 105th Anniversary

I might have a blockbuster of a post for my readers. I doubt I would get such good intel from the Trump administration, where there are stringent efforts in place to control who knows what.

There is some great intel below and from what I can see, the nuclear 9/11 plan is still on. Going by the below intel, indications are that the nuclear 9/11 is set to take place anytime between now and the end of the year. The Christmas holiday period might be the target time period.

What I find unsettling is that the nuclear 9/11 event might be to affect an entire city, presumably in the West, but perhaps somewhere in the Middle East too. The City affected hasn't been chosen. Also, although Houston is the organisation ordering the event, it appears that Mossad has been tasked with making it happen. So, the Israelis have had a say in it!

The Iran/Pakistan press conference from a few days ago

I haven't published all of the intel I possess. I might be sitting on intel that could be significant in some way. I will continue to sit tight on it for now but I wish to advise my readers, some of whom I suspect are government spies, that I may have a consequence to weigh in.

Popular content so far

The late Ken's commentary on why he started his old web site remains very popular. Also popular is my partial e-book, "Protecting yourself from the NSA". (Link above).

If my e-book proves more popular, I may consider releasing the entire e-book. Ideally, I would like Edward Snowden to see it with the aim of him endorsing it (if he considers it to be technically correct and therefore worthy of Endorsement).

Another possible insight into the status of the nuclear 9/11 event. YOU LET GO can imply that Bibi is saying "goodbye" to the Easter event. In other words, it has been brought to an end. I'm still looking for clues as to the status of the nuclear 9/11 event (better known as "Easter").

About me - for new readers

I'm Dominic Westall, the owner of ken-welch.com and the administrator/editor of this blog. I have been operating my blog since August 2021 (nearly five years now).

From 2006-2010, I was a regular reader of the late Ken's site when he was running it. From 2008-2010, I became a student of his, learning Reverse Speech practice. What motivated me was that I also wanted to have this remarkable skill at finding out about the world that is hidden from me. My first attempt at doing Reverse Speech was to try it on a three minute audio recording of my own voice. Sure enough, I heard my own private thoughts! From that moment on, I believed in Reverse Speech and realised it was real.

The late Ken did not show a photo of himself to me in the over 1,000 emails we exchanged. Also, he didn't run his site blog style like I currently do. He posted monthly to his site and he ran a newsletter. Some of the late Ken's readers contacted him.

At the end of March 2010, ken stopped emailing me and his site wasn't being updated. A year past by and still no emails and no site updates. I presumed the worst. In emails to me, Ken revealed that Big Oil was determined to get him - they must have succeeded.

I do not have good enough intel from Reverse Speech study to be able to operate, reliably, the war status indicators. The battle that will lead to the Hiroshima event - if it is still on - is well concealed.

And compared with the time that the late Ken was around, political VIPs are being denied sensitive information about the nuclear 9/11 plot. My best intel achievements to date have come from the Chinese President and the Russian President.

I will still advise my readers of a Red Alert moment: this will be when the mushroom cloud appears.

Putin's keynote speech at Russian forum

He spoke for around 45 minutes, which is long for him. I have the Russian only language version of his keynote speech (took some searching) and will examine it soon. Last I examined a speech from Putin I found one English language thought.

Hoping that I get some English language Reversals, I like to corroborate intel from Putin with the intel from NATO head Rutte (below).

I examined his opening statement and have some rather interesting intel.

Going solely by the Mainstream Media propaganda stream and some posts on X, it looks like Iran is playing the political game with the USA (and Houston) to bring an end to the war with them. The outcome seems to be that Houston won't be able to have a false-flag mini nuclear incident in the Middle East (I call it the nuclear 9/11) to justify nuking Iran.

So, is Houston turning to Russia and Ukraine once again for a mini nuclear false-flag incident?

This one has me thinking and the intel seems to be an analogy. Has Hegseth been on a mission to get more countries to sign on to the nuclear 9/11 plan? Or to reassure certain countries about the plan's intentions?

With the nuclear 9/11, I still believe that the world will change more so than what it did when September 11th, 2001 happened.

Even though the nuclear device is a small one, it is likely being detonated in a politically strategic place. As for timing, I'm not expecting to find that in Reverse Speech examination of political VIPs.

NZ PM Luxon's Budget 2026 speech

I have the audio for this speech and will examine it over the long weekend.

Some rare honesty over the pension issue for the next set of pensioners

Superannuation a 'time bomb' – Willis

Finance Minister Nicola Willis has described superannuation as a "time bomb" that is here now and political parties need to be honest about it.

Willis told Newstalk ZB's Heather du Plessis-Allan Drive the National Party will come to the election with changes to ensure superannuation is affordable.

"We don't think it should be an entitlement that exists for retirees now but is robbed from younger people in the future because this generation of politicians refuse to do anything to tweak it."

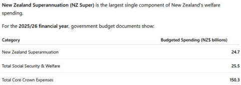
Willis said the superannuation bill for the country will increase by $1.8 billion next year, which is almost as big as her entire operating allowance in this Budget.

Nicola Willis has only been partially honest about the matter. The financing issue facing the NZ government is the same issue faced in Western Europe and the USA.

The late Ken Welch found Western governments would eventually face bankruptcy for tax revenues would dwarf expenditure - far more money would be spent on pensions than money coming in to pay for it.

The bankers' solution to this is a 'killer' pandemic for the retirees. This has yet to take place.

A search with ChatGPT revealed how much is spent on Pensions annually in NZ:$24.7 Billion.



New Zealand Superannuation (NZ Super) is the largest single component of New Zealand's welfare spending.

For the **2025/26 financial year**, government budget documents show:

Category	Budgeted Spending (NZ$ billions)
New Zealand Superannuation	24.7
Total Social Security & Welfare	25.5
Total Core Crown Expenses	150.3

Trump's opening remarks before the Cabinet Meeting

U.S. President Donald Trump Holds Major Cabinet Meeting at White House

Some interesting intel found from these remarks but just two items.

Forward: ...my knowledge... **(JULY - DOM)**

0:00 / 0:10

Perhaps something is planned for me in the month of July (7)?

Forward: ...very simple - Iran cannot have... **(RIDE/RIGHT ON THE TERROR OR PRESSURE)**

0:00 / 0:25

Due to lack of intel from key political leaders, I find it hard to read what is going on with Iran. But this intel offers a little bit of insight. The IRGC will continue to be subjected to either terror or pressure from the USA Federal Government and/or Houston (oil cartel).

Trump's Memorial Day speech

Not much intel found from this speech. Cuban intel might want to pay a visit soon. Cuba may well be next on the list for a USA takeover.

Forward: ...we're having victories... **(HOUSTON NEVER ??)**

This might be related to Iran.

Edward Snowden's detailed interview on the NSA

This interview was done ten years ago (2016), so some of the intel I share may be dated.

I've got enough intel that tells me Snowden's warning to the people is more serious than he has made it out to be.

Forward: ...came up higher... **(CAREER HARM ME/KOREA ARMY)**

▶ 0:00 / 0:18

There are two different Reversals for this, because I can hear two. There is CAREER HARM ME or KOREA ARMY.

Forward: ...clearance level... **(THE ORWELL TANK??)**

▶ 0:00 / 0:21

Forward: ...this surveillance you believe that some crimes... **(NOW MOSSAD - THE EVIL USE - KNOW EVERYTHING)**

▶ 0:00 / 0:45

Quite a long Reversal. The Mossad are being fed the intel that the NSA collects, hence why Israel always wants a prominent place in world political affairs. But the application of the intel is not serving a use beneficial to the people of the world. If that doesn't scare you, I don't know what will.

Putin's remarks in China (signing ceremony)

From the same YouTube source as Chinese President Xi Jinping's speech, I have only two English language Reversals.

Forward: ...Russian... **(THE WEAKER SEEM TO SERVE THE KEY)**

▶ 0:00 / 0:29

Putin can be a philosophical thinker and I sense this is one of those understandings from him. It could refer to anything. What comes to my mind is it might be a thought of the state of people's minds in the setting of social/ political issues. Those that are weak is some way are easier to maneuver.

Forward: ...Russian... **(JACINDA THE WINNER)**

▶ 0:00 / 0:17

Putin must be aware of the old political relationship between former NZ PM Dame Jacinda Ardern and I. In 2017 and 2018 she was at the helm of a difficult political development that involved the UK, Iran and New Zealand. She and I were at the center of the matter.

The former PM was in political difficulty with Iran in January 2019. This was solved in March the same year.

Today there is mixed opinion in NZ about how well the former PM is doing politically and in business. In her recent book publicity event here in NZ (Aotea centre), there was a Covid (the vaccine) and March '19 (firearms issue) protest outside the front on the building.

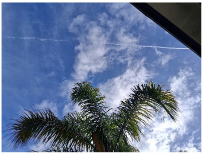
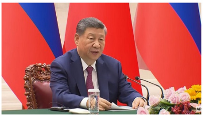
The NZ government targeted me this afternoon with a poisonous chemtrail

Ethylene Dibromide was sprayed right over my home. Look at the thin long line.



I'm supposed to breathe in the ED and have a sore throat tonight.

Chinese President Xi Jinping's remarks at the signing ceremony



Chinese President Jinping is incredibly well informed. I wish I could get as much high quality intelligence from Western leaders. Clearly the UK and USA governments are going to great lengths to protect their intelligence, including military intelligence, from people like me. The Chinese government isn't doing so.

Forward: ...Mandarin... **(WE DO NEED/MISS EASTER)**

▶ 0:00 / 0:23

I state WE DO NEED EASTER because that can be heard. But, potentially, this can also be heard:WE DO MISS EASTER - there is a faint SS sound there.

Forward: ...Mandarin... **(TAME THE WESTALL)**

▶ 0:00 / 0:20

I'm pleased with my blog and I have a loyal following. I'm doing a public service that could actually be necessary.

Forward: ...Mandarin... **(IRAN WAS VERY SERIOUS)**

▶ 0:00 / 0:24

About what is unknown: It could be war or it could be a peace deal that is on terms favourable to them.

Forward: ...Mandarin... **(LET'S HOPE THEY START MONDAY)**

▶ 0:00 / 0:32

So, something is set to happen on Monday. It isn't necessarily the start of military action on Iran.

Forward: ...Mandarin... **(I DIE FOR PEACE)**

▶ 0:00 / 0:17

President Jinping would prefer peace over war and is willing to die for it.

Forward: ...Mandarin... **(?? THEY WANT TO FRAME US)**

▶ 0:00 / 0:21

Hmm.....interesting.

Forward: ...Mandarin... **(NIMMERS AFRAID)**

▶ 0:00 / 0:18

Well, this is new. The NIMMERS stands for Navy Intelligence Management.

Forward: ...Mandarin... **(ENOUGH WITH THE SHOT)**

Forward: ...Mandarin... **(KILL WESTALL FOR THE NIMMER)**

Either this is just an understanding from Putin or Chinese intel have been asked to deal with me.

Forward: ...Mandarin... **(HEY I SEE A THREAT)**

▶ 0:00 / 0:19

Interesting. The Chinese governments is still dealing with threats.

Forward: ...Mandarin... **(RUSSIA TO SPY ON US)**

▶ 0:00 / 0:28

So, the Chinese government and maybe even the people will be spied on by Russia.

Forward: ...Mandarin... **(FINISH A.I. COVER)**

▶ 0:00 / 0:22

The Chinese government (via the military) are using Artificial Intelligence technology for purposes that aren't entirely clear. Not sure what COVER means.

Interest in my e-book - Protecting yourself from the NSA

I notice that there is quite a bit of interest in my partial e-book "Protecting yourself from the NSA". I think I should do Reverse Speech on Edward Snowden to see if I can learn about the NSA's clandestine capabilities or anything else about the NSA for that matter - whatever Snowden knows.

There are two interviews of interest and I have downloaded them from YouTube. Here is one and here is the other. They are long interviews and it will take me several days to examine them.

From Ken Welch's radio show in 2009 - why he started his site and more

I went over a segment of the talk radio show the late Ken did in 2009 and found a fifteen minute snippet that I'd like to post.

Ken talks about why he started his site; about 'al Qaeda'; about how the USA government does not tell the truth anymore; about how the Pentagon is run by the oil cartel; about 'fake' terrorists; and how a small false-flag nuke attack on USA territory or that of any ally will result in Iran being nuked.

General commentary

In the world of government (particularly the West) this blog may be seen a service in the field of espionage, a form of spying that is seen as best if it can work. Espionage is the act of obtaining (hidden) information without the consent of the holder.

The late Ken Welch started his research based site as an act of self defence against a lying and corrupt Federal Government (USA) that wanted to change the entire world politically with the detonation of a small nuclear device on American soil. He wanted to stop the event from happening as it was due to take place near where he lived (Houston).

I have simply continued with his cause. I might add that twenty years later, it is harder to do the late Ken's work as it is harder to get the quality of intelligence that he once had. Western governments are all too well aware of Reverse Speech and those with skills in the practice. Efforts to make Prime Ministers and Presidents know little in terms of classified intelligence have somewhat succeeded (up to a point). Intel agencies simply do not inform their leaders - it's a simple as that.

South African President Ramaphosa speech (on resigning)

He spoke about the calls for him to resign. In examination I found one item of Reverse Speech that deserves publication.

Forward: ...severe difficulties that the country... **(IT'S NOT EVER - EASTER IF IT PAYS)**

▶ 0:00 / 0:30

He's associating the nuclear 9/11 event (aka Easter) as having potential political developments for helping him and South Africa out of the political mess that it is in. My reading is taken from a combination of the forward speech and that of the Reversal.

Talk on X about Iran war resuming

I have seen a few posts from people that Trump may restart the attacks on Iran as early as next week.

Chinese President Xi Jinping's brief Mandarin speech

Although he spoke in his mother tongue (Mandarin?), I have found some English language Reversals.

Potentially revealing and insight intel from the Chinese leader. He knows about me, not necessarily from this blog and he sure knows that the Trump administration is aware of me.

Forward: ...Mandarin... **(I HEAR WESTALL)**

▶ 0:00 / 0:18

Yep, I'm being talked about in the Trump and Jinping administration. It's nice to know!

Forward: ...Mandarin... **(EVIL STALL HIM)**

▶ 0:00 / 0:18

Is the nuclear 9/11 on a delay? Has Trump been told to slow down...or stop for now?

Forward: ...Mandarin... **(AL QAEDA ??)**

▶ 0:00 / 0:24

Could it be that a blame person has been decided on for the nuclear 9/11? If so, it may be the 'al Qaeda'.

Forward: ...Mandarin... **(I NEED TO GO - EASTER)**

▶ 0:00 / 0:26

Hmm...interesting nonetheless.

Trump's brief speech in Beijing

Just one item of intel from this very short speech and its about a nuke.
